

Aluminum, Steel & Copper Derivatives Worksheet

ClearanceIQ Import Kit · Section 232 Tariffs

Section 232 adds tariffs on steel (25%), aluminum (10%) and their derivative products. Confirm whether your item is on the derivative list and whether an exclusion applies.

Before you file

- Identify the base metal (steel / aluminum / copper)
- Find your 10-digit HTS and check the Section 232 derivative lists
- Check country of melt & pour / smelt for steel & aluminum
- Search for an active exclusion at exclusionapprovals.cbp.gov
- Confirm the rate (base duty + 232 ad valorem)

Worksheet

Field	Your entry
Product	
Base metal	
HTS (10-digit)	
Country of melt & pour	
Section 232 rate	
Exclusion # (if any)	
Total duty = base + 232	

Rates change by proclamation - verify the current rate at [cbp.gov](https://www.cbp.gov) before entry.
